### Trailer Mounted Heated Asphalt Haulers

**Model: CRE-400AH-TR**

**4 ton capacity heated asphalt hauler**

- ◆ Wide Track Low Profile Design
- ◆ Heavy Duty Construction
- ◆ Diesel or Propane Fired Heating System
- ◆ Digital Thermostatic Controls
- ◆ For Use With Hot and Cold Patch

**Model: CRE-250AH-TR**

**2.5 ton capacity heated asphalt hauler**

**Concord Tow Behind Heated Asphalt Haulers are a great resource to add to your road repair equipment fleet. Built with durability in mind, the material hopper is constructed of 10 gauge steel with a 1/4" steel plate floor. These units are fully insulated to maintain consistent heating throughout the machine, including top loading doors and rear unloading doors. Digital thermostatic controls allow for accurate temperature settings from 0 to 400°F with your choice of diesel or propane fired burner system. Customize your Concord Asphalt Hauler to meet your exact needs with a variety of options available.**

# Heated Asphalt Haulers

## STANDARD FEATURES

- CRE-250AH-TR - 2.5 ton capacity; CRE-400AH-TR - 4 ton capacity
- Heavy duty structural steel channel trailer frame
- 10 gauge steel sub-floor between hopper and trailer
- Adjustable trailer lunette eye with safety breakaway chains
- 10 gauge steel inner material hopper and outer shell walls
- Inner material hopper floor constructed of 1/4" thick steel plate
- 7000 pound capacity axles with "rubber torsional" spring suspension
- CRE-250AH-TR is a single axle trailer; CRE-400AH-TR is a tandem axle trailer
- Electric operated trailer brakes on all wheels with self powered safety breakaway
- Top loading doors are fully insulated and have spring assist for easy opening and closing
- One piece outer shell side and front walls include two each integral press formed horizontal "V" braces
- High temperature blanket type insulation throughout, including: top loading doors, rear access doors and trailer sub-floor assembly
- Rear wall of hauler includes two integral heated shovel storage compartments, one on each side of the unit
- All door assemblies use "bullet" type door hinges with grease fittings to allow periodic maintenance
- Heating systems available as liquid or vapor withdrawal propane or diesel / kerosene fuel fired
- Outer sidewall of hopper includes a high temperature sight glass to allow viewing of burner flame when performing burner maintenance
- All heating systems are auto ignite, thermostatic and digitally controlled with all operator components located within a NEMA enclosure

## AVAILABLE OPTIONS & ATTACHMENTS

- Self contained power spray system includes a heavy duty gasoline engine direct coupled to a hydraulic pump, hydraulic driven asphalt pump, hydraulic valve to control pump operation, reverse function for system clean out, adjustable flow control for asphalt pumping speeds, hand wand, hydraulic oil reservoir, and washout tank
- Remote hydraulic power spray system includes a hydraulic driven asphalt pump, hydraulic valve to control pump operation, reverse function for system clean out, adjustable flow control for asphalt pumping speeds, hand wand, and washout tank
- Auxiliary material tanks for tack or sealant, available fully insulated and heated, or non-heated and uninsulated
- Various propane fired hand torches
- Hydraulic surge braking system in lieu of standard electric brakes
- Onboard battery charger for overnight battery maintenance
- Warning lights available post mounted at the rear of the unit, and as a arrow board that folds down for transport
- Tool storage rack for shovels or lutes
- Various asphalt maintenance tools including hand rollers, tampers, shovels, lutes, etc
- Loading crane and platform for a vibratory compactor
- Additional options available upon request

## Other Quality Products Manufactured By Concord Road Equipment:

Chassis Mounted Hydraulic Post Pullers      Straight Drop Spreaders      Gravity Feed Aggregate Chip Spreaders  
Wood Chip Collection Boxes      Undertailgate Broadcast Spreaders      Heated Road Repair Kettles  
Leaf Collection Boxes      Replacement Tailgate Broadcast Spreaders      **Heated Asphalt Haulers**  
Equipment Trailers      "Berming Machine" Undertailgate Cross Conveyor      Titan Sno-Pushers  
Multi-Purpose Spreaders      Direct Application Spraying Systems      Work Zone Platform Bodies  
Titan Series Snowplow Hitches      Hydraulic Oil Reservoirs      Custom Design and Manufacturing
