## Road Equipment Mfg., Inc.

**EASY LOADING MODEL  
STAND ALONE**

**EASY LOADING MODEL  
WITH FOLDING BOOM**

**DIRECT CHASSIS MOUNT**

**HOOKLIFT ATTACHMENT**

**SKID MOUNTED MODEL  
WITH SINGLE LANE  
SPRAYING SYSTEM**

## DAS Series Direct Application Spraying Systems

- ◆ Skid Mounted
- ◆ Easy Loading Skid
- ◆ Hooklift Attachment
- ◆ Direct Chassis Mount

From pickup trucks to airport runway equipment, Concord Direct Application Spraying Systems offer the highest quality in spray applicators. Anti-icing systems apply liquid directly to the road to prevent ice from bonding to the surface. De-icing systems apply liquids at a high rate to melt existing snow and ice from the roadway. The Concord DAS Series is offered with capacities ranging from 300 to 4000 gallons and pumping systems designed to support any application method. Systems can be outfitted with single or multiple lane spray bars or folding boom systems. DAS Series equipment can be mounted as a hooklift attachment or constructed on a skid for easy loading into an existing body. Concord Road Equipment also offers systems designed for direct chassis mounting.

- 94 Series Hydraulic Post Pullers
- 100 Series "Gravity Feed" Chip Spreaders
- 195 Series "Straight Drop" Spreaders
- 960 Series Undertailgate Conveyor/Bermer
- 965 Series Undertailgate Broadcast Spreaders
