CRE965 Series Auger Type Undertailgate Material Spreaders

- Material Distribution 4' To 40'
- Adjustable Spread Pattern
- Self-Leveling Sander
- Full Depth Hinged Drop Bottom
- Full Length Hinged Trough Cover
- All Heavy Duty Construction
- "Easy Slide" Slide and Pocket Arm Type Mounting

The Concord CRE-965 Auger Type Undertailgate Series Material Spreader is available as a single or a dual auger unit. The single auger spreader hydraulic motor is direct coupled through exclusive "Flex Drive" to drive the auger, while the dual auger version is chain and sprocket driven.

This versatile spreader offers a combination dump over cover and back guard which allows the truck to be used as a dump without removing the spreader! A bottom opening cleanout door is provided for quick removal of auger obstructions. The unit easily attaches to a dump body with the standard "Easy Slide" slide arm pocket mounting kit. Units come in your choice of painted mild steel or natural finish #304 stainless steel.

The Concord CRE-965 Series Self-Leveling Spinner Sander Assembly is available with a steel spinner disc which incorporates replaceable fins or with a polymer disk that includes formed in fins. Variable spread widths and patterns may be obtained by adjusting the spinner assembly.
