Road Equipment Mfg., Inc.

Hydraulic Post Puller

The Concord Post Puller is versatile and easy to use, making the difficult task of removing sign and guardrail posts a simple, cost effective, one-person operation. With an extended reach of 94 inches and the ability to rotate around 180 degrees, the Concord

hydraulic operated post puller makes quick work of even the most difficult jobs. Available standard with 21,000 lbs pulling force, or optional 31,000 lbs pulling force in the extra heavy duty model, the Concord Post Puller mounts easily to most trucks, and does not transfer post pulling forces to the vehicle chassis.

Providing Innovative Manufacturing Solutions for the Municipal, Construction, and Industrial Markets since 1976.

Hydraulic Post Puller

AVAILABLE MODELS

- CRE-94SH21 Standard Heavy Duty Model - 21,000 lbs Pulling Force
- CRE-94HD31 Extra Heavy Duty Model - 31,000 lbs Pulling Force

STANDARD FEATURES

- Heavy Duty Tubular Steel Construction
- 94 Inch Extended Reach
- 14 Inch Pulling Cylinder Stroke
- 13 Inch Below Plane Reach Height
- Does Not Transfer Post Pulling Forces To Truck Chassis
- High Strength Hydraulic Cylinders
- 58 Inches Retracted Reach
- 180 Degrees Swing Radius
- 23 Inch Above Plane Reach Height
- Simple To Operate & Maintain
